

TAA Teleconference

The Generative Method: Steps 5-8

Step 5: Formulating a Research Question from the Explanatory Schema

Criteria for Research Question:

- Identifies the theoretical construct
- Contains suggestion of recognizability
- Contains a transcendence of data
- Contributes to understanding the theoretical construct
- Has the capacity to surprise
- Is robust

Step 6: Coding the Artifact in Detail to Test the Schema

Step 7: Reviewing the Literature to Connect Schema to Conversations in Discipline

Step 8: Framing the Study
